*bringing technology closer to life*

## About Cabs4Me

Life's too short to waste time in waiting on hold. We're completely independent of the taxi companies, which mean you can receive a taxi in the shortest possible time using the most appropriate taxi company – rather than only sending bookings to taxis that we own.

Taxi4Me provides a convenient, single point of access to all of taxi subscribers. Taxi4Me is most sophisticated and globally acclaimed taxi dispatch system provided by taxi subscribers. Taxi4Me provide technology which allows online communication between taxi drivers and customer, which is fast, secure, affordable and economical tariff through tamper proof electronic fare meters. Trusted and preferred taxi service brands are provided for customer satisfaction and safety. Taxi4me provides a way of providing feedback by rating taxis and drivers to make services better.

## For Drivers

Grow your business at high speed

- Save Fuel & Money:** Within app direct hailing, drivers burn less fuel cruising for jobs. Passengers can find your cab even if it doesn't drive right in front of them. Also as the passenger enters all the information, you will save money on call center staff.
- New Sales Channels:** Taxi4Me provide new ways for your passengers to reach you. Passengers can book or hail your cars from the Taxi4Me smart phone app. We also offer a simple to use web booking interface, where passengers can enter their ride details and book. The web booking can easily be integrated into your webpage. If you can copy and paste a single line of HTML then you can start receiving internet bookings from your webpage today!
- Manage Trips:** Manage bookings and track payments at anytime from anywhere. Obtain passenger details at the click of a button. Restrict bookings within specific number of hours. Restrict pickup and drop off locations.
- Happier Driver:** How often do you receive annoyed calls from passengers wondering where their taxi is? Many jobs are also lost when lines are busy and passengers call a competing business. With Taxi4Me in app or web booking the customer will never be stuck on hold, and once a booking is made the passenger can track the ride. Time of arrival is estimated and once a job is started the passenger can see the exact location of the taxi on the map!
